Experience

Protiviti

Consultant

01/2025 - 06/2025

- Collaborated with a team of eight individuals to develop and refine Enterprise Risk Management (ERM) frameworks, integrating risk management into clients' strategic planning and decision-making processes, helping mitigate, monitor, and report potential risks.
- Enhanced risk assessment process by developing and optimizing a project tracking tool using Azure DevOps, driving greater transparency, efficiency, and accountability across all project engagements.
- Identified 30+ design gaps and assisted the client in resolving 15+ regulatory gaps, contributing to a 30% improvement in control operating effectiveness.

Protiviti

Junior Consultant

09/2023 - 12/2024

- Led end-to-end design and operational testing of 70+ internal controls for Microsoft, ensuring compliance with the Foreign Corrupt Practices Act (FCPA), Partner Agreement requirements, and SOX regulations.
- Spearheaded 10+ international projects focusing on risk assessment and process optimization, increasing overall client revenue while coordinating cross-functional stakeholders to achieve a 97% on-time project completion rate.
- Delivered comprehensive audit reports to senior management, identifying corrective actions that addressed compliance gaps and uncovered potential future revenue opportunities.

Education

University of Maryland, College Park- GPA: 3.1

08/2025 - 12/2026

Master of Science in Business Analytics

Guru Gobind Singh Indraprastha University - GPA: 3.52

08/2019 - 06/2022

Bachelor of Business Administration

Projects

CAVA Growth Strategy: Mediterranean Fast-Casual Expansion

- Developed a 3–5 year national growth strategy for CAVA, identifying high-potential Texas and Florida markets by analyzing demographic density with HHI 11–24% above state medians.
- Conducted competitive benchmarking against Chipotle and Sweetgreen, positioning CAVA's value-for-money offering as a key driver for customer acquisition.
- Designed a "Sustainable Moat" strategy leveraging vertical integration and centralized production, enabling 14% underpricing versus industry inflation while preserving margins.

Achievements and Volunteering
